Dear Ms. Patrick,

I would like to thank you for your dedication and service to Georgia's abused and neglected children through your organization Baby Peaches. I am delighted that you are involved in the health and well being of Georgia's tiniest babies and you have chosen to make a difference for our children in need.

The ultimate goal of my Our Children Campaign is to spur a new era of collaboration among Georgia's many communities - individuals, corporations, organizations, foundations and faith-based communities, and to increase the level of volunteerism on behalf of Georgia's children around the state.

Thank you for joining my mission to improve the lives of Georgia's children.

Sincerely,

A handwritten signature in cursive script that reads "Mary Perdue".
